

# ACCESSORIES

## SECURITY ENCLOSURE

Remote or otherwise unmonitored injection points may be vulnerable to vandalism or other unauthorized access. SAF-T-FLO's security enclosure helps to protect against this by providing a means of enclosing the entire quill.

### KEY FEATURES

- Durable 18 gauge 304 stainless steel construction.
- Lock tab to allow or securing of the access door (lock not included).
- Hinged access door swings clear to allow for easy maintenance of the quill.
- Vented to prevent potential off-gassing from collecting within the enclosure.
- Multiple access points for incoming chemical feed tubing.
- Multiple mounting slots to allow for a variety of mounting positions and methods.
- Accommodates all SAF-T-FLO 1/2" - 1" retractable and non-retractable injection quills and sampling probes.

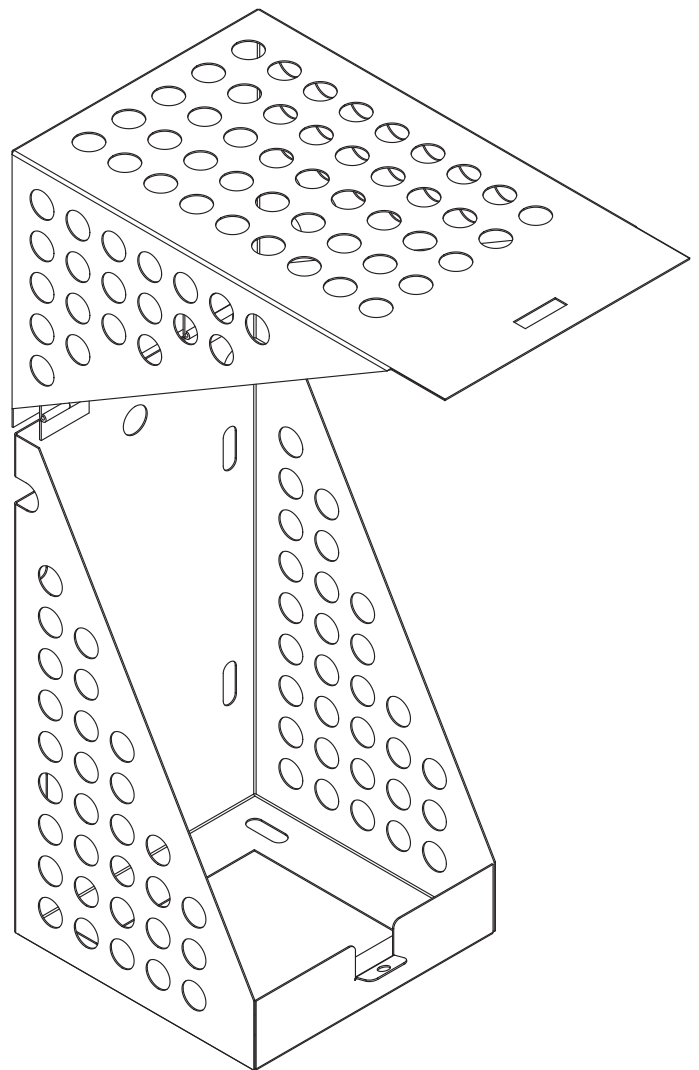

### ORDER INFORMATION

Order using model number **SE-100**

### OPTIONAL MOUNTING STRAP SETS

Mounting Strap Sets are designed to allow the security enclosure to be secured directly to the process pipe that the quill being enclosed is installed on. Each set consists of (2) straps, (2) mounting struts, and (4) nuts/washers. Sets are available for common process main sizes 3" - 12" in diameter.

PROCESS PIPE DIAMETER	MODEL NUMBER
3"	STRP-003
4"	STRP-004
6"	STRP-006
8"	STRP-008
10"	STRP-010
12"	STRP-012
